

# Anthropological Origins of Humans

You will work together in your groups to research & present information about your chosen topic and to think critically about it.

## Presentation Criteria

1. The title of your presentation should be phrased as a question
2. Your slide presentation should have images as their focus. Avoid using large blocks of text, as this defeats the purpose of a visual presentation.
3. Text used should be brief, and most of the information should be delivered orally.
4. Effective organization, with headings that guide the viewer
5. Accurate information which includes an answer to your question
6. Bibliography (use bibliography template from Bloggerclass)
