

Science Fair Research Criteria

Example Only

The purpose of this paper is to give background scientific information about your topic. For example, a student experimenting with flotation in salt solutions might present something like this.

- **A drawing or Illustration should be included**

Overall Topic: Heading:

What is a chemical solution?

Explain what a solution is.

Subhead

Salt

What is salt, chemical symbol? Explain.

Subhead

Salt Solutions

explain

Subhead

What Makes Things Float?

explain

Subhead

Ending: Related Items or Applications

How are solutions used or useful?

-
- **Keep a list of information sources and add to your display (bibliography).**
